CENSUS OF INDIA 1961

VOLUME XIV

RAJASTHAN

PART I-C(i)

SUBSIDIARY TABLES

C. S. GUPTA

Of the indian administrative service Superintendent of Census Operations, Rajasthan

PREFACE

The 1961 Census had embarked upon a rather ambitious programme which involved a hitherto unprecedented scale of tabulation and presentation of data. A large number of tables giving absolute figures were prepared which have already been released in various parts viz. Part I.I. A containing General Population Tables (A-Series), Parts II.B(i) & II.B(ii) containing General Economic Tables (B-Series), Part III. Containing Social and Cultural Tables (C-Series), Part III. Containing Migration Tables (D-Series), Part III. containing Household Economic Tables (B-Series), Part IV-B containing Household Economic Tables (B-Series), Pa

This part presents the information in proportionate figures, highlights its chief characteristics and helps the reader to know at a glance the saltent features of the Census data which are not always easy to comprehend in totality from the bulk of individual figures. The usefulness of these subsidiary tables in providing the gist and substance of the main census results is, therefore, great.

These tables have been issued in two parts. This part contains the subsidiaries to the General Population Tables and the General Economic Tables. The second part, released separately, is devoted to the Household Economic Tables, the Social and Cultural Tables and the Aligration Tables. Subsidiary tables to the Homsing and Establishment Tables have already been presented alongwith the Report on Mousing and Establishment Part IV-A), Subsidiary tables have not been prepared for the Special Tables for the Scheduled Castes and the Scheduled Tables.

The preparation of these tables has involved much hard work, skill and patience. I thank Dr. U. B. Mathur, Deputy Superintendent of Census Operations, Rajasthan under whose care this work was under taken. Other members of the staff who assisted me in the preparation of this work are mentioned over leaf.
